TONY NDEREVA MALUKI

IT TECHNICIAN AND A SOFTWARE ENGINEER

Adept in object-oriented programming, algorithm and data structure, developing, debugging code and networks. With a knack for implementing new project using all stages of the software development life-cycle, from requirement gathering and feasibility studies to deployment and maintenance. Organized and dependable candidate successful at managing multiple priorities with a positive attitude. Willingness to take on added responsibilities to meet team goals.
I use the MERN stack (MongoDB, ExpressJS, ReactJS, NodeJS) as my main engineering tools.
